

Moon Survival

Scenario:

You are a member of a space crew originally scheduled to rendezvous with a mother ship on the lighted surface of the moon. However, due to mechanical difficulties, your ship was forced to land at a spot some 200 miles from the rendezvous point.

During re-entry and landing, much of the equipment aboard was damaged and, since survival depends on reaching the mother ship, the most critical items available must be chosen for the 200-mile trip.

The Task:

Overleaf are listed the 15 items left intact and undamaged after landing. Your task is to rank order them in terms of their importance for your crew in allowing them to reach the rendezvous point. Place the number **1** by the most important item, the number **2** by the second most important, and so on through number **15** for the least important.

Start by placing your rankings in the 'Individual Ranking (1)' column. Then wait for instructions from your trainer.

Please **do not** discuss your rankings with anyone else at this stage.

| ITEMS | Individual Ranking (1) | Team Ranking (2) | Group Ranking (3) |
|---|-------------------------------|-------------------------|--------------------------|
| Box of Matches | | | |
| Food Concentrate | | | |
| 50 Feet of Nylon Rope | | | |
| Parachute Silk | | | |
| Portable Heating Unit | | | |
| Two .45 Calibre Pistols (loaded) | | | |
| One Case of Dehydrated Milk | | | |
| Two 100 lb. Tanks of Oxygen | | | |
| Stellar Map | | | |
| Self-inflating Life raft | | | |
| Magnetic Compass | | | |
| 5 Gallons of Water | | | |
| Signal Flares | | | |
| First Aid Kit, Including Injection Needle | | | |
| Solar-Powered FM Receiver-Transmitter | | | |
