What People Say...

I found it all incredibly useful. Your energy, ability to analyse and guide us point on point as we went along was incredible. You never lost focus and always had something very positive to add.

Vicki Baumann, Yoga Teacher | Retreats, Workshops, 121, Corporate

You very quickly got me thinking of areas of my business that could link well with my life story. I absolutely loved the different ways of telling a story. The unexpected flip, leading in from an entirely different angle; changing the pace."

Jo Tocher, Light After Loss Author, Holistic Coach

"Stacia is articulate, knowledgeable, engaging, full of conviction and funny. She has that sparkle that can light up any room. Stacia comes alive during performance and that is when you see storytelling performed at its best. Shear genius. Highly recommended!"

Lynn Stanier MBE Founder & Chief Executive - UK Their Future Today

Before working with Stacia I felt confident in my pitch abilities but after working with Stacia I felt I was able to communicate the story of my company that would allow an investor or client to be excited about the potential of working with us. Working with Stacia allowed me to communicate my messages in a more dynamic way that would help me to develop a connection with the audience.

Cecilia Harvey CEO Hyve Dynamics

I've had the pleasure of attending one of the workshops Stacia hosted for the Women in Blockchain talks. I enjoyed every moment; she wove together facts and anecdotes to build a compelling presentation. I have never thought I had much of an interesting story to tell, but Stacia's talk inspired me to look deeper and discover the story I never knew I had. It has opened up a world of possibilities and I cannot recommend enough the chance to experience the same epiphany I had during her talk.
